Faculty discussed and made minor modifications to the documents. Specific additional changes were made as outlined below:

Workload Document

- We added a sentence to account for grant releases and to note that no faculty should go below a 1/1 teaching assignment without prior approval.

Strategic Plan

- Added "M" to NSCM.

AESP Document

- To clarify and remove redundancy in the teaching criteria section, we removed "u" and combined U/K (involving leadership in pedagogy).
- New language was suggested in the research section to address Director Littlefield's concerns about the collaborative nature of work done in digital media.
- Language was added to clarify the number of service assignments fulfilled for different evaluation ratings (satisfactory, above satisfactory, etc.)

P&T Document

- Typos were fixed and reviewed with the faculty.
- Minor edits were made to the evaluation rankings consistent with the AESP changes above.
- Other changes made in the AESP document will be integrated into the P&T document to remain consistent.

Meeting adjourned at 1:00pm.
